LAND AND HOLD-SHORT OPERATIONS (LAHSO)

LAHSO is an acronym for "Land and Hold-Short Operations." These operations include landing and holding short of an intersection runway, an intersecting taxiway, or other predetermined points on the runway other than a runway or taxiway. Measured distance represents the available landing distance on the landing runway, in feet.

Specific questions regarding these distances should be referred to the air traffic manager of the facility concerned. The Aeronautical Information Manual contains specific details on hold-short operations and markings.

LDG RWY	HOLD-SHORT POINT	AVBL LDG DIST
31	17R-35L	7,450 feet
35L	13-31	10,250 feet
17	08L-26R	4,700 feet
26L	17-35	8,300 feet
